an authoritative account of the operation of the auschwitz death camp Ò a comprehensive work that is unlikely to be overtaken for many years this learned volume is about as chilling as historiography gets Ó Ñwalter laqueur the new republic Ò a vital contribution to holocaust studies and a bulwark against forgetting Ó Ñpublishers weekly Ò rigorously documented brilliantly written organized and edited the most authoritative book about a place of unsurpassed importance in human history Ó Ñjohn k roth Ò never before has knowledge concerning every aspect of auschwitz been made available in such authority depth and comprehensiveness Ó Ñrichard l rubenstein leading

scholars from the united states israel poland and other european countries provide the first comprehensive account of what took place at the auschwitz death camp principal sections of the book address the institutional history of the camp the technology and dimensions of the genocide carried out there the profiles of the perpetrators and the lives of the inmates underground resistance and escapes and what the outside world knew about auschwitz and when published in association with the united states holocaust memorial museum washington d c

rudolf hoss has been called the greatest mass murderer in history as the longest serving commandant of auschwitz he supervised the killing of more than 1 1 million people unlike many of his nazi colleagues who denied either knowing about or participating in the holocaust hoss remorselessly admitted both at the nuremberg war crimes trial and in his memoirs that he sent hundreds of thousands of jews to their deaths in the gas chambers frankly describing the killing process his innovations included the use of hydrogen cyanide derived from the pesticide zyklon b in the camp s gas chambers hoss lent his name to the 1944 operation that gassed 430 000 hungarian jews in 56 days exceeding the capacity of the auschwitz s crematoria this biography follows hoss throughout his life from his childhood through his nazi command and eventual reckoning at nuremberg using historical records and hoss autobiography it explores the life and mind of one of history s most notorious and sadistic individuals

could the allies have prevented the deaths of tens of thousands of holocaust victims inspired by a conference held to mark the opening of the us holocaust memorial museum this book brings together the key contributions to this debate

the holocaust has been the subject of countless books works of art and memorials fiftyfive years after the fact the world still ponders the enormity of this disaster the holocaust encyclopedia is the only comprehensive single volume work of reference providing both a reflective overview of the subject and abundant detail concerning major events policy decisions cities and individuals up to date and designed for easy access the encyclopedia presents information on the major aspects of the holocaust in essays by scholars from eleven countries who draw on a number of sources including recently uncovered evidence from the former soviet bloc to provide in depth studies on the political social religious and moral issues of the holocaust as well as short entries identifying events sites and individuals the book also has more than 250 photographs many of them rare and 19 maps the volume includes raul hilberg on concentration camps and gypsies ruth bondy israel gutman and dina porat on major ghettos roger greenspun on the holocaust in cinema and television richard breitman on american policy michael berenbaum on theological and philosophical responses saul friedlander on nazi policy michael hagemester on the protocols of the elders of zion michael r marrus on historiography christopher r browning on the madagascar plan robert s wistrich on holocaust denial james e young on holocaust literature

winner of the national jewish book award this valuable resource covers an aspect of the holocaust rarely addressed and never in such detail library journal this is the first volume in a monumental seven volume encyclopedia reflecting years of work by the jack joseph and morton mandel center for advanced holocaust studies at the united states holocaust memorial museum which will describe the universe of camps and ghettos many thousands more than previously known that the nazis and their allies operated from norway to north africa and from france to russia for the first time a single reference work will provide detailed information on each individual site this first volume covers three groups of camps the early camps that the nazis established in the first year of hitler s rule the major ss concentration camps with their constellations of subcamps and the special camps for polish and german children and adolescents overview essays provide context for each category while each camp entry provides basic information about the site s purpose prisoners guards working and living conditions and key events in the camp s history material from personal testimonies helps convey the character of the site while source citations provide a path to additional information

a shocking account of nazi genocide and the inhuman conditions in auschwitz but equally shocking is the initial disbelief with which the revelations were met alfred wetzler was a true hero his escape from auschwitz and the report he helped compile telling for the first time the truth about the camp as a place of mass murder led directly to saving the lives of 120 000 jews no other single act in the second world war saved so many jews from the fate that hitler and the ss had determined for them sir martin gilbert together with another young slovak jew rudolf vrba both deported in 1942 the author succeeded in escaping from the notorious death camp in the spring of 1944 there were some very few successful escapes from auschwitz during the war but it was these two who smuggled out the damning evidence a ground plan of the camp constructional details of the gas chambers and crematoriums and most convincingly a label from a canister of cyclone gas the book is cast in the form of a novel to allow information not personally collected by the two fugitives but provided for them by a handful of reliable friends to be included nothing however has been invented from the introduction by dr robert rozett wetzler is a master at evoking the universe of auschwitz and especially his and vrba s harrowing flight to slovakia the day by day account of the tremendous difficulties the pair faced after the nazis had called off their search of the camp and its surroundings is both riveting and heart wrenching shining vibrantly through the pages of the memoir are the tenacity and valor of two young men who sought to inform the world about the greatest outrage ever committed by humans against their fellow humans

this four volume set provides reference entries primary documents and personal accounts from individuals who lived through the holocaust that allow readers to better understand the cultural political and economic motivations that spurred the final solution the holocaust that occurred during world war ii remains one of the deadliest genocides in

human history with an estimated two thirds of the 9 million jews in europe at the time being killed as a result of the policies of adolf hitler and nazi germany the holocaust an encyclopedia and document collection provides students with an all encompassing resource for learning about this tragic event a four book collection that provides detailed information as well as multidisciplinary perspectives that will serve as a gateway to meaningful discussion and further research the first two volumes present reference entries on significant individuals of the holocaust both victims and perpetrators anti semitic ideology and annihilationist policies advocated by the nazi regime giving readers insight into the social political cultural military and economic aspects of the holocaust while enabling them to better understand the final solution in europe during world war ii and its lasting legacy the third volume of the set presents memoirs and personal narratives that describe in their own words the experiences of survivors and resisters who lived through the chaos and horror of the final solution the last volume consists of primary documents including government decrees and military orders propaganda in the form of newspapers and pamphlets war crime trial transcripts and other items that provide a direct look at the causes and consequences of the holocaust under the nazi regime by examining these primary sources users can have a deeper understanding of the ideas and policies used by perpetrators to justify their actions in the annihilation of the jews of europe the set not only provides an invaluable and comprehensive research tool on the holocaust but also offers historical perspective and examination of the origins of the discontent and cultural resentment that resulted in the holocaust subject matter that remains highly relevant to key problems facing human society in the 21st century and beyond

auschwitz birkenau is the site of the largest mass murder in human history yet its story is not fully known in auschwitz laurence rees reveals new insights from more than 100 original interviews with auschwitz survivors and nazi perpetrators who speak on the record for the first time their testimonies provide a portrait of the inner workings of the camp in unrivalled detail from the techniques of mass murder to the politics and gossip mill that turned between guards and prisoners to the on camp brothel in which the lines between those guards and prisoners became surprisingly blurred rees examines the strategic decisions that led the nazi leadership to prescribe auschwitz as its primary site for the extinction of europe s jews their final solution he concludes that many of the horrors that were perpetrated in auschwitz were driven not just by ideological inevitability but as a practical response to a war in the east that had begun to go wrong for germany a terrible immoral pragmatism characterizes many of the decisions that determined what happened at auschwitz thus the story of the camp becomes a morality tale too in which evil is shown to proceed in a series of deft almost noiseless incremental steps until it produces the overwhelming horror of the industrial scale slaughter that was inflicted in the gas chambers of auschwitz insights gleaned from more than one hundred original interviews shed new light on history s most famous death camp with the testimonies of survivors providing a detailed and chilling portrait of the

camp's inner workings in a companion volume to the pbs documentary

this is the first hand account of rudolf's vrba's extraordinary experiences as a registrar at auschwitz as well as the story of his daring escape although a testimonial full of unbearable vivid horror and suffering it isn't this that makes the book so gripping and so important what endures is vrba's personality his unbelievable physical tenacity and incredibly enough his sense of humour vrba was imprisoned in auschwitz for twenty one months and seven days he then escaped with his fellow slovak alfred weltzler as they made their way home they carried with them seared in their immediate memory the true story of the camp the hitherto unknown destination of jewish deportees from all over europe initially conceived as a serialisation in the daily herald in 1960 this full account is being published for the first time in twenty years it is a must read for any person interested in understanding not only the inner workings of the prison camp with the expected horrors and brutality but also a personal story of strength survival and guile

this book tells a story to shake the conscience of the world it is the catalogue of the first ever traveling exhibition about the auschwitz concentration camp where 1.1 million people mostly jews but also non jewish poles roma and others lost their lives more than 280 objects and images from the exhibition are illustrated herein drawn from the auschwitz birkenau state museum and other collections around the world they range from the intimate such as victims family snapshots and personal belongings to the immense an actual surviving barrack from the auschwitz iii monowitz satellite camp all are eloquent in their testimony an authoritative yet accessible text weaves the stories behind these artifacts into an encompassing history of auschwitz from a polish town at the crossroads of europe to the dark center of the holocaust to a powerful site of remembrance auschwitz not long ago not far away is an essential volume for everyone who is interested in history and its lessons

this volume brings together some important and stimulating contributions to our understanding of nazi genocide these readings have been selected for the purpose of acquainting students with a variety of views some of classic stature others very recent after an introduction that contains a brief historical overview of the holocaust the book explores problems of definition and origins and then looks at the motivation of holocaust perpetrators next it compares conflicting views about the victims survival strategies and women's experience of the camps and examines charges that the victims failed to put up any significant resistance to their tormentors the book then inquires into the attitudes and actions of bystanders while the victims were being murdered and finally considers the possibilities that some jews might have been saved from the gas chambers through military action or intercession by outside forces pref

this volume of the annual studies in contemporary jewry series presents essays on the origins of the holocaust with contributions from many of the world's leading holocaust

scholars the fate of the european jews 1933 1945 provides multiple perspectives on the question of whether the holocaust can best be explained as an inevitable result of europe s anti semitic history or as a tragic historical mutation

profiles 60 women and men who were caught up in the holocaust including nazi perpetrators and their victims world leaders and policy makers and those who showed their humanity and courage by resisting hitler s reign of genocidal terror

in reaction to the irving v penguin lipstadt winter 2000 trial the editors of this volume sought to provide a text that moves away from the holocaust itself to ask broader questions about the stubborn persistence of anti semitic invective and historical distortion despite legal verdicts to the contrary historical correctives and media reportage in these essays the authors explore the assumptions and methods of their disciplines that limit or enhance the ability of any single approach historical legal or journalistic to challenge the racism and or anti semitism which underlie the persistence of such forgeries as the protocols of the elders of zion and the fallacies of holocaust denial teachers of college and graduate courses on the holocaust are increasingly faced with proliferating print and web based assertions and re assertions of premises whose veracity have been long since disproved this text encourages students and professionals to explore through three trial contexts protocols of zion eichmann nuremberg and holocaust denial the way in which claims related to the fate of jews in the twentieth century have been made struggled over and fixed in the law in historical canon and in the popular imagination the protocols are a forgery and crimes against humanity and genocide against the jewish people did happen this volume marks the ways in which we present and re present the historical facts the journalism and the legal proofs that support the truth of those assertions in the face of invective and denial

a large number of all the orders ever issued by the various commanders of the infamous auschwitz camp have been preserved they reveal the true nature of the camp with all its daily events in these orders for example the decent treatment of inmates the prohibition of their mistreatment as well as the improvement of the hygienic conditions were emphasized a topic discussed with particular frequency is the visit of family members of ss members to auschwitz and their constant entering and exiting of the camp even the children of ss members were hanging around in the camp and were apparently playing with the inmates there were even plenty of sightseeing tours of the camp during the war which some orders tried to regulate horticulture growing fruit trees picking flowers and much more were addressed in these orders only one thing is not to be found in these orders the slightest trace of an indication that something outrageous was going on at auschwitz on the contrary many orders are in clear and insurmountable contradiction to claims that inmates were being mass murdered this book contains a selection of the most important of these orders along with comments that put them in their proper historical context
