it is a well known fact that kant used the lament of the trojan queen hecuba from ovid s metamorphoses to describe the fate of metaphysics but these words could

equally be used to describe the peculiar fate of the alcibiades major there was a time when this small dialogue was held in high regard and enjoyed much authority 2 the alcibiades major was unreservedly attributed to plato it was much read quoted and alluded to and it is no exaggeration to say that it was one of the key works of the corpus platonicum the contrast with the present could hardly be more striking

being in christ is a central theme in the message of the gospel it is central for understanding the relation of christian believers and the church with jesus christ their lord it determines the identity of a christian it is helpful for understanding the presence of christ and his salvation in the present it can be developed as an element of a theological ontology finally it is a theme with a great integrating power in this book the theme being in christ is analyzed in different perspectives the attention is focused on the reality of being in christ its ontological implications first two representatives of the reformed tradition are investigated the english puritan john owen and the dutch neo calvinist herman bavinck second a reconstruction of the pauline and johannine perspectives on being in christ is provided third the theme is examined in the work of the english ethicist oliver o donovan and the german swiss theologian ingolf u dalferth in the final chapter the author gives his own systematic theological proposal of a concept of being in christ

fate and utopia in german sociology provides a lucid introduction to a major sociological tradition in western thought it is an intellectual history of five scholars ferdinand tönies ernst troeltsch max weber georg simmel and georg lukács who created modern german sociology over the course of fifty years from 1870 to 1923 liebersohn portrays his subjects as thinkers who were deeply immersed in the politics and poetry of their time and whose sociology benefited in unexpected ways from sources as diverse as medieval mysticism and nietzsche s birth of tragedy he maps out their shared sociological discourse shaped in response to the fragmentation they perceived in public life in education and the arts and in protestant religious life german sociology has generally been interpreted as having a tragic perspective on modern society as implied by the pervasive idiom of fate liebersohn argues that this sense of fate was matched by an underlying utopian hope for an end to fragmentation rooted for all of his subjects in the lutheran idea of community the book s five biographical chapters are structured to discuss ideas of community society and personality in the work of the individual discussed while there is a general movement among the chapters from community to society to socialism many specific texts are discussed and the overall orientation is one of intellectual history rather than sociological analysis

this important work challenges the validity of the new perspective on paul and judaism working with new data fom jewish literature and a fresh reading of romans 1 5 simon gathercole produces a far reaching criticism of the current approach to paul and points a new way forward building on a detailed examination of the past generation of scholarship on paul and early judaism gathercole s work follows two paths first he shows that while early judaism was not truly oriented around legalistic works righteousness it did consider obedience to the law to be an important criterion at the final judgment on the basis of this reconstruction of jewish thought and a rereading of romans 1 5 gathercole advances his main argument that paul did indeed combat a jewish perspective that saw obedience to the law both as possible and as a criterion for vindication at the final judgment paul s reply is that obedience to the law is not a criterion for the final judgment because human nature makes obedience to the law impossible his doctrine of justification can therefore be properly viewed in its jewish context yet anthropological issues also take center stage
