an in depth look at a profession that is alternately valued and reviled but is consistently a microcosm of society library journal the american teacher a history is as the title makes clear a history of teachers in the united states supported by hundreds of research studies done over the years as reported in scholarly journals the book fills a niche in the history of education sociology gender studies and the united states as a whole k 12 teachers and to a lesser extent college university teachers are discussed in the work which travels through the past century told chronologically and divided into ten decades the american teacher sheds light on the important role that teachers have played in this country over the last one hundred years the subject is parsed through the voices of educators intellectuals and journalists who have weighed in on its many different dimensions from the 1920s right up to today the american teacher is a key site of race gender and class we learn from a survey of its history revealing some of the tensions embedded in our constructed social divisions controversy has always surrounded teachers in the united states making them a fascinating subject to explore in depth the schoolteacher has long served as a principal player in american culture making the american teacher a kind of character study that distinguishes fact from fiction rather than a research study itself the work draws on the most important scholarship that has been completed over the years the work is a big sweeping picture of the history of american teachers that is designed to complement more academic books that take a more in depth analysis of unique topics with original research and in place of focusing on a particular topic the book examines the threads that have connected issues such as gender and economic status over time in short the american teacher is a synthetic narrative driven study that brings together in one place the essential research in the field and like any good history the book shows how mining the stuff of everyday life serves as the richest way to learn more about a group of people at a particular time and in a particular place

much philosophical work on pop culture apologises for its use using popular culture is a necessary evil something merely useful for reaching the masses with important philosophical arguments but works of pop culture are important in their own right they shape worldviews inspire ideas change minds we wouldn t baulk at a book dedicated to examining the philosophy of the great gatsby or 1984 why aren t star trek and superman

fair game as well after all when produced the former were considered pop culture just as much as the latter this will be the first major reference work to right that wrong gathering together entries on film television games graphic novels and comedy and officially recognizing the importance of the field it will be the go to resource for students and researchers in philosophy culture media and communications english and history and will act as a springboard to introduce the reader to the other key literature in the field

When somebody should go to the book stores, search start by shop, shelf by shelf, it is really problematic. This is why we offer the ebook compilations in this website.
