based on the 10th international study association on teacher thinking and practice conference in gothenburg this collection of research conducted by scholars from europe north america israel and hong kong provides an overview of the current

this volume is the first handbook that brings together cutting edge international research on teacher ethos from a broad array of disciplines the main focus will be on research that illustrates current conceptualizations of ethos and its importance for acting effectively and responsibly in and out of the classroom research will encompass updated empirical and philosophical work that points to the difference in learning when teaching is practised as a moral activity instead of a merely functional one authors are among the world s foremost researchers whose work crosses over from moral education into psychology neuroscience sociology philosophy pedagogy and curriculum drawing on these various fields of research today more than ever we understand that teachers like other professionals need more than subject matter expertise for acting responsibly and doing

their best in their daily duties doing so requires possessing a guiding system of professional ethics moral positioning goals norms and values in other words a professional ethos while the handbook concentrates on western domains in the current era the work will extend to other cultures and times as well with this comprehensive range of perspectives the book will be attractive and useful for researchers on teachers and teaching as well as for teacher educators curriculum designers educational officials and last but not least anyone who is interested in what makes a good teacher this volume is also a tribute to Fritz Oser a leading scholar in research on ethos who sadly passed away during the compilation of this handbook

research is increasingly becoming more influential in the field of education and this handbook brings together a range of top academic experts who represent diverse fields within and outside of education as well as quantitative qualitative and mixed method approaches to provide an upto date advanced analysis of all relevant issues involved in educational research the handbook is written in lively welcoming prose and central to the handbook is an intention to encourage and help researchers place ideas at the epicenter of inquiry in addition explicit discussion of the fundamental challenges that researchers must consciously address throughout their inquiry are identified and solutions provided to help future researchers overcome similar obstacles

the purpose of this study was to explore an american model harris 1986 of effective classroom teaching behaviors as a framework for teachers professional growth the particular focus was on the self assessment component of the methods related to the model an empirical approach was adopted and comparative data were gathered from american and finnish teachers using a common self evaluation instrument the study identified and analyzed cross cultural differences and culture specific behaviors the analysis revealed that a complete fit between the model and the data could not be found discriminant analysis revealed interesting differences in the evaluation of teachers from different teaching traditions the american teachers were found to be much more dynamic in their classroom behavior than their finnish colleagues finnish teachers reflected their

academic tradition well by giving much more emphasis to a businesslike type of behavior the research is presented in eight chapters as follows 1 introduction 2 teachers professional development 3 the reform traditions 4 methods for helping teachers professional growth 5 the empirical framework 6 cross cultural validity of the harris model 7 dimensions of teacher classroom behavior and 8 discussions on methodology and conclusions appendixes provide a copy of the questionnaire in english and in finnish and computer listings for chapters 6 and 7 contains approximately 175 references author ll
