hone mental maths skills with this range of tests designed by a practising primary mathematics co ordinator the 30 tests are grouped into 10 blocks each containing 3 similar tests this allows for improved consolidation and improvement when compared with other test books that quickly jump from one mathematical concept to the next this is the uk version of the book which uses english spellings and s and pence in the questions

ks2 maths mental workout book 5 levels 3 4

a new series offering a bank of mental maths activities designed to last between 5 and 10 minutes activities can be used as standalone oral and mental maths games a bank of photocopiable resources is provided to support children with the activities levelled mental maths tests are provided to check children s progress against a range of framework objectives and assessment outcomes

this is a brand new strand of our bestselling series developing numeracy there is one book of photocopiable mental maths activities for each year of primary school the books develop pupils mental calculation strategies through oral and mental maths activities as required by the national numeracy strategy ofsted has reported that mental maths is still an area of weakness and many schools find their sats scores are let down by pupils not achieving the required standard in the national mental maths test at the end of key stage 2 developing numeracy mental maths will be of great benefit to these teachers and pupils and will therefore be a popular addition to the series

level ks2 subject mental maths targeted practice for every topic taught at school when it comes to getting the best results practice really does bring progress matched to the national curriculum this collins year 5 mental maths workbook is designed to improve fluency in maths skills this book contains fun and varied practice activities to develop mental maths strategies and fluency in applying them using a repeated practice method that is proven to work this book improves performance in school as well as in tests and assessments questions are organised into levels of increasing difficulty while progress tests throughout check children s understanding along the way 8 listening tests are accessible via qr codes children can record their own results too supporting awareness and boosting confidence a handy answer section is also included to ensure every child can succeed in year 5 we ve got a year 5 english targeted practice workbook 9780008201678 available as well

clear guidance and creative activities in this pick up and go resource help you to teach ks2 mental arithmetic fully in line with the new national curriculum teaching notes worked examples and photocopiable resources minimise preparation time creative activities and games focus on using and applying knowledge to secure pupils understanding progress tests assess pupils understanding and recap on their learning answers are provided at the back of the book for easy reference

100 mental maths starters is a series of six flexible teacher s handbooks designed

to provide content for the mental and oral lesson starter sessions first 10 minutes of 100 dedicated maths lessons numeracy hours each year specific book is based on the planning and content of the corresponding 100 maths lessons book and provide in full 100 of the starter activities only outlined in that series all the questions answers and essential information a teacher needs to deliver 100 10 minute starter sessions systematic development of mental maths skills according to nns objectives year by year follows planning and activity outlines in 100 maths lessons and more flexible photocopiable format for delivery by teacher or for children working together essential resources provided as photocopiable pages

part of a progressive course of mental maths designed to fit in with current maths schemes and covering both oral and mental maths pupils work through one double page spread per week the right hand page contains five photocopiable activities and there are ten minute oral maths activities

excel writing skills provides activities and exercises designed to improve the quality of students written expression the exercises are based on ten common text types in which specific grammar punctuation and language skills are used this book will develop students writing skills for all school subjects in this book your child will find exercises based around ten common text types a wide variety of interesting activities fun visual exercises to stimulate the imagination revision sections throughout for constant reinforcement a lift out answer section

these homework texts provide an opportunity for shared activities between parent and child they provide two activities a week a variety of formal written practice and informal shared practical activities the activities focus on key number skills and there is advice for parents

mental maths is the maths we do in our heads without the use of calculators and without writing down the calculation mental maths strategies are the tricks we use to do maths in our heads there are different ways of finding the answer to any mental maths problem and such strategies are the focus of this series even though calculators and computers play an enormous role in the modern world we still need to go back to the basics we do need to know how to check that the sales assistant at the counter is giving us the right change mental maths has become more important than ever and new primary maths syllabuses in australia are reflecting this for example nsw has placed an emphasis on mental maths in its primary syllabus and even the year 10 school certificate examination has a

compulsory non calculator section features of this book include 32 double page units of mental arithmetic are included 8 units for each school term each unit is divided into four sets a b c and d of 20 questions each each numbered question covers particular maths topics throughout the book for example question 1 always covers addition while question 20 always covers geometry a special e help section at the front of the book gives different strategies and explanations to help students solve mental arithmetic problems these are also numbered so they link to the question numbers in each mental arithmetic unit a fun spot unit containing fun activities and a revision unit are included at the end of each 8 units extra practice sections which reinforce particular strategies appear in the lower part of each page answers to all questions are in a lift out section in the centre of the book

pupils can quickly get to grips with ks2 mental arithmetic using questions that become progressively more challenging fully in line with the new national curriculum clear explanations and worked examples ensure pupils grasp concepts quickly how did you do checks at the end of each topic allow pupils to self evaluate their work regular progress tests assess pupils understanding and give them the chance to recap on their learning answers to every question provided in a pull out section at the centre of the book
